MASTER QST

ORARIO LEZIONI - A.A. 2025/2026 – 1° PERIODO DIDATTICO (dal 04/05 al 08/05 2026)

ORARIO	LUNEDI'	MARTEDI'	MERCOLEDI'	GIOVEDI'	VENERDI'
15-16	Python and Qiskit programming - Prof. Faro - **Aula B**	Random Variables and Stochastic processes - Prof.ssa Piccitto - **Aula D**	Python and Qiskit programming - Prof. Faro - **Aula I**	Random Variables and Stochastic processes - Prof.ssa Piccitto - **Aula D**	Quantum computers, protocols and hardware - Prof. Paladino - **Aula D**
16-17	Python and Qiskit programming - Prof. Faro - **Aula B**	Random Variables and Stochastic processes - Prof.ssa Piccitto - **Aula D**	Python and Qiskit programming - Prof. Faro - **Aula I**	Random Variables and Stochastic processes - Prof.ssa Piccitto - **Aula D**	Quantum computers, protocols and hardware - Prof. Paladino - **Aula D**
17-18	Quantum computers, protocols and hardware - Prof. Paladino - **Aula B**	Quantum computers, protocols and hardware - Prof. Paladino - **Aula D**	Quantum computers, protocols and hardware - Prof. Paladino - **Aula I**	Quantum mechanics for computation - Prof. Grimaudo - **Aula D**	Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula D**
18-19	Quantum computers, protocols and hardware - Prof. Paladino - **Aula B**	Quantum computers, protocols and hardware - Prof. Paladino - **Aula D**	Quantum computers, protocols and hardware - Prof. Paladino - **Aula I**	Quantum mechanics for computation - Prof. Grimaudo - **Aula D**	Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula D**

MASTER QST

ORARIO LEZIONI - A.A. 2025/2026 – 1° PERIODO DIDATTICO (dal 11/05 al 15/05 2026)

ORARIO	LUNEDI'	MARTEDI'	MERCOLEDI'	GIOVEDI'	VENERDI'
15-16	Quantum computers, protocols and hardware - Prof. Paladino - **Aula B**	Random Variables and Stochastic processes - Prof.ssa Piccitto - **Aula D**	Basic quantum communication - Prof. Piccitto - **Aula I**	Basic quantum communication - Prof. Piccitto - **Aula D**	Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula D**
16-17	Quantum computers, protocols and hardware - Prof. Paladino - **Aula B**	Random Variables and Stochastic processes - Prof.ssa Piccitto - **Aula D**	Basic quantum communication - Prof. Piccitto - **Aula I**	Basic quantum communication - Prof. Piccitto - **Aula D**	Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula D**
17-18		Quantum computers, protocols and hardware - Prof. Paladino - **Aula D**	Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula I**		Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula D**
18-19		Quantum computers, protocols and hardware - Prof. Paladino - **Aula D**	Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula I**		Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula D**

MASTER QST

ORARIO LEZIONI - A.A. 2025/2026 – 1° PERIODO DIDATTICO (dal 18/05 al 22/05 2026)

ORARIO	LUNEDI'	MARTEDI'	MERCOLEDI'	GIOVEDI'	VENERDI'
15-16	Technology Transfer - Prof.ssa Di Mauro - **Aula B**	Basic quantum communication - Prof. Piccitto - **Aula D**	Python and Qiskit programming - Prof. Crippa - **Aula I**	Python and Qiskit programming - Prof. Crippa - **Aula D**	Python and Qiskit programming - Prof. Crippa - **Aula D**
16-17	Technology Transfer - Prof.ssa Di Mauro - **Aula B**	Basic quantum communication - Prof. Piccitto - **Aula D**	Python and Qiskit programming - Prof. Crippa - **Aula I**	Python and Qiskit programming - Prof. Crippa - **Aula D**	Python and Qiskit programming - Prof. Crippa - **Aula D**
17-18	Technology Transfer - Prof.ssa Di Mauro - **Aula B**	Elements of quantum information theory - Prof. Falci- **Aula D**	Elements of quantum information theory - Prof. Falci- **Aula I**	Elements of quantum information theory - Prof. Falci- **Aula D**	Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula D**
18-19		Elements of quantum information theory - Prof. Falci- **Aula D**	Elements of quantum information theory - Prof. Falci- **Aula I**	Elements of quantum information theory - Prof. Falci- **Aula D**	Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula D**

MASTER QST

ORARIO LEZIONI - A.A. 2025/2026 – 1° PERIODO DIDATTICO (dal 25/05 al 29/05 2026)

ORARIO	LUNEDI'	MARTEDI'	MERCOLEDI'	GIOVEDI'	VENERDI'
15-16	Technology Transfer - Prof.ssa Di Mauro - **Aula B**	Random Variables and Stochastic processes - Prof.Romano V. - **Aula D**	Elements of quantum information theory - Prof. Falci- **Aula I**	Elements of quantum information theory - Prof. Falci- **Aula D**	Elements of quantum information theory - Prof. Falci- **Aula D**
16-17	Technology Transfer - Prof.ssa Di Mauro - **Aula B**	Random Variables and Stochastic processes - Prof.Romano V. - **Aula D**	Elements of quantum information theory - Prof. Falci- **Aula I**	Elements of quantum information theory - Prof. Falci- **Aula D**	Elements of quantum information theory - Prof. Falci- **Aula D**
17-18	Technology Transfer - Prof.ssa Di Mauro - **Aula B**	Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula D**	Random Variables and Stochastic processes - Prof.Romano V. - **Aula I**	Random Variables and Stochastic processes - Prof.Romano V. - **Aula D**	Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula D**
18-19		Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula D**	Random Variables and Stochastic processes - Prof.Romano V. - **Aula I**	Random Variables and Stochastic processes - Prof.Romano V. - **Aula D**	Quantum computers, protocols and hardware - Prof. Chiriaco-Giannelli - **Aula D**
